org-014.txt with similarity: 95.0%

Text to analyze:

The sphere of artificial intelligence (AI) technology is quite wide. Collaborative and individual technologies based on AI are available nowadays. One of them is computer vision technology. Computer vision is also related to other technologies: Machine learning (ML), deep learning (DL), artificial neural networks, etc. Computer vision is applied in many different areas. One of the areas where it has been widely applied in recent times is healthcare. In healthcare, various algorithms in the aforementioned technologies are used to obtain meaningful information from medical images. Computer vision, as a concept, and its fields of application, particularly in healthcare, are reviewed in this chapter. Also, the example of tumor detection by computer vision in a MATLAB environment is considered.

Sentence analysis:

Plagiarized sentence (file FID-018.txt):

'The sphere of artificial intelligence (AI) technology is quite wide.'

Original sentence (file org-014.txt):

'The sphere of artificial intelligence (AI) technology is quite wide.'

Plagiarized sentence (file FID-018.txt):

'Collaborative and individual technologies based on AI are available nowadays.'

Original sentence (file org-014.txt):

'There are many individual and collaborative AI-based technologies available.'

Plagiarized sentence (file FID-018.txt):

'One of them is computer vision technology.'

Original sentence (file org-014.txt):

'One of them is computer vision technology.'

Plagiarized sentence (file FID-018.txt):

'Computer vision is also related to other technologies: Machine learning (ML), deep learning (DL), artificial neural networks, etc.'

Original sentence (file org-014.txt):

'Computer vision is also related to other technologies: Machine learning (ML), deep learning (DL), artificial neural networks, etc.'

Plagiarized sentence (file FID-018.txt):

'Computer vision is applied in many different areas.'

Original sentence (file org-014.txt):

'Computer vision is applied in many different areas.'

Plagiarized sentence (file FID-018.txt):

'One of the areas where it has been widely applied in recent times is healthcare.'

Original sentence (file org-014.txt):

'One of the areas where it has been widely applied in recent times is healthcare.'

Plagiarized sentence (file FID-018.txt):

'In healthcare, various algorithms in the aforementioned technologies are used to obtain meaningful information from medical images.'

Original sentence (file org-014.txt):

'In healthcare, various algorithms in the aforementioned technologies are used to obtain meaningful information from medical images.'

Plagiarized sentence (file FID-018.txt):

'Computer vision, as a concept, and its fields of application, particularly in healthcare, are reviewed in this chapter.'

Original sentence (file org-014.txt):

'In this chapter, the concept of computer vision, its fields of application, and its application in healthcare are reviewed.'

Plagiarized sentence (file FID-018.txt):

'Also, the example of tumor detection by computer vision in a MATLAB environment is considered.'

Original sentence (file org-014.txt):

'Also, the example of tumor detection by computer vision in a MATLAB environment is considered.'
